EcoTech Wipes®

Welcome to EcoTech

EcoTech (Europe) Limited are one of Europe's largest manufacturers of cleaning and hygiene products, including cleaning cloths, impregnated wipes, paper hygiene and chemicals. Our entire range has been carefully built up over many years to ensure that our customers have a range of cleaning products available to them that all meet with the high standards expected in today's market. Where customers previously had several suppliers for various products you can now mix and match products on your pallet deliveries from a single source.

The EcoTech range has been developed and manufactured by us to strict ISO9001 standards. The following pages of this catalogue show the diverse range that we produce, all of which are available from stock. All orders placed before 2.00pm are generally shipped the same day unless otherwise requested. Our products are also available through our distributor network partners in the UK, Ireland, Mainland Europe and the Middle East.

Our production and head office is based at our 100,000 sq.ft factory in Coventry, with 16 production lines and over 2,000 pallet spaces of finished product for same day dispatch.

Made in Britain

99%

of all EcoTech products
are produced in
EcoTech's UK factory.

Centrally located

All products are distributed from our manufacturing facility in Coventry.

Our central location helps reduce UK shipping distances and our product's carbon footprint.

ALCOHOL FREE WET WIPES

Alcohol-free Hand & Surface Disinfectant Wipes

This product range has been developed and clinically tested for the effective disinfection of all hard surfaces. The formulation remains active on the wiped surface for up to 30 days, enhancing infection control procedures. Effective against E-coli, Salmonella, C-diff and Tuberculosis. Being alcohol-free makes them ideal for use in Halal establishments. Tested to BS EN13727, BS EN1276 & BS EN14348.

1

EcoClenz® Dispenser

Convenient wall-mounted dispenser. Easy to use, either as a lockable unit for public use, or quick release catch for staff use.

INDUSTRIAL WET WIPES

Critical Surface Wipes

Heavy Duty Degreasing Wipes

Engineered from a very soft but extremely strong non-woven fabric which has exceptional wiping performance and is classed amongst the lowest lint fabrics available on the market.

Totally binder and silicon-free and impregnated with a 70% alcohol formulation which allows the cloths to strip back deep layers of grease, grime and inks to leave surfaces particle and smear-free.

The formulation is designed to flash off very fast in order to reduce the risk of air born particles re-seating on the surface. These cloths are ideally suited to the automotive, aviation and boat building industries.

Paint & Graffiti Wipes

Effective wipe for the removal of paint overspray, permanent marker, ink and general graffiti from non-porous surfaces including polycarbonates.

Solvent Wipes

Heavy duty solvent wipes for industrial applications. Effectively removes grease, fat, oil and silicon from tools and equipment.

The ideal wipe for the workshop and mobile service engineers.
